A Loving Heart Tana was like a second mother to me. I've been best friends with her daughter for so many years and Tana accepted me into her family without any hesitation. She was always so warm hearted and kind, and no matter what she was there to listen, or to help cheer you up. I will always remember the little things--like how she smelled, or what she wore, or how she always smiled whenever she spent time with her family. She was the only person who ever called me Ezekiel and I was perfectly OK with that because it was a special nickname just for me. It's always hard when someone you love passes away so soon, and the pain is still there, but Tana lives on forever in our hearts. She is forever loved and will be missed immensely. Love you Tana! Your Ezekiel
